Hudson Valley, New York
UEI: F8WESK541XW1 | CAGE: 9YD00
NAICS: 541511 / 541519 | PSC: 7J20

Enterprise-grade, fully automated cybersecurity — built for regulated industries and government.

CORE COMPETENCIES

Automated Vulnerability Scanning & Pen Testing
Automated discovery, exploitation and remediation guidance across physical and virtual deployments.

Next-Gen SIEM & Immutable Event Ledger
Cryptographic verification and preservation of security events — including AI agent actions — across your entire stack.

API Security Testing
OWASP-methodology automated API testing that finds what manual reviews miss.

Compliance Automation
Helping customers comply with CMMC 2.0, HIPAA, PCI-DSS, NY DFS, GLBA, and NIST CSF.

PRODUCTS & SERVICES

● Ayewo
Fully Automated Vulnerability Scanning, Reporting & Penetration Testing

► Physical node: size of two decks of cards, <20W power draw
► Virtual node option for cloud and remote environments
► Scheduled scanning, reporting, actionable remediation
► On demand and scheduled penetration testing.
► CMMC 2.0 and NIST CSF aligned

● HSEC Sentinel
Next-Generation SIEM with Cryptographic Immutable Event Ledger

► Collects and cryptographically verifies security & operational events
► Preserves AI agent prompts and actions alongside traditional logs
► Covers devices, applications, and infrastructure end-to-end
► Immutable ledger architecture — tamper-evident by design
► Plugins and easy to instructions to easily integrate your systems

● HSEC API Probe
Automated API Security Testing — OWASP Methodology

► Automated testing aligned to OWASP API Security Top 10
► Finds authentication flaws, injections, and logic vulnerabilities
► Scheduled or on-demand scanning modes
► Detailed findings reports with remediation guidance
► Supports REST, GraphQL, and SOAP API surfaces

WHY HUDSON INFOSEC

► Enterprise-grade tools at transparent, flat-rate pricing — no per-seat surprises
► Physical + virtual deployment options serve any environment or compliance boundary
► Compliance-first design: every product maps to a recognized regulatory framework
► USA Based, Designed and Coded
► Government clients get dedicated infrastructure.
► AI-era ready: Sentinel natively captures AI agent actions for audit and forensics

REGISTRATION & CREDENTIALS

UEI	F8WESK541XW1
CAGE Code	9YD00
NAICS	541511 — Custom Computer Programming, 514519 Cybersecurity
PSC	7J20 — IT & Telecommunications
Entity	LLC — Small Business
Service Area	Nationwide
Frameworks	CMMC 2.0, NIST CSF, HIPAA, PCI-DSS, NY DFS, GLBA
